

ODP 0-339
20 March 1980

MEMORANDUM FOR: Deputy Director for Administration

FROM: Bruce T. Johnson
Director of Data Processing

SUBJECT: ODP Report for Week Ending 19 March 1980

Long-range Plan

The Data Processing Long-range Management Plan for FY 1980-FY 1986 has been distributed. [REDACTED]

STATINTL

Support to OPPPM

PERSIGN - Integrated Personnel Management Information System. From all indications, the new PERSIGN, PERSTEP, and STAFFING systems have been well received and successful since production implementation on 9 March. These systems, plus the COMVAD, MNPDICT, CENQUAL, PERFIT, BATCHGIM II, and REPORTS systems (and eventually the CIARDS, PERSEAS, and MINIGAP system), will henceforth be known as the Human Resources Systems (HRS).

Statistically, this project has taken 3-1/2 years, 26-1/2 applications development man-years, and has involved some 100 people from ODP, OPPPM, OF, and OIG. It provides automatic interface capabilities for updating personnel data from PERSIGN to 19 different data processing systems, as well as the related systems mentioned above. [REDACTED]
